Greetings!

I look forward to having you in class! I live on a small farm in southeast Michigan with my wonderful family. My husband, who is a music teacher, and I have homeschooled our children for over 20 years. Autumn, Wesley, and Ellie graduated from Pensacola Christian College. Molly is studying veterinarian medicine. We LOVE animals, we have 2 horses, a goat, tons of chickens, 3 turkeys (named Thanksgiving, Christmas, and Easter), a bunny, several cats, a parrot, a lovebird, and 3 dogs, Pete, Gus, and Tucker. We have had the opportunity to raise many domestic and wild animals. I love gardening, reading, sewing, watching movies (going to the drive-in), and hanging out with my family! Besides teaching my own children over the years, I also helped several families in my home by sharing my love for science. I love the hands-on aspect of science. It helped us understand so much more about what we were learning and it was so much FUN! I own and operate REACH Tutorial, teaching a variety of science classes and Latin to all ages. Both my husband and I have been very active in our local and state homeschool groups. We have served on the boards of two local homeschool groups for over 15 years and look forward to helping other homeschool families continue on this awesome journey.

I am also very passionate about helping others know our Creator. Studying Anatomy and Physiology allows us to really understand how creative God is and I desire that creation science be taught to our children. I have chosen this curriculum that brings God the Glory and will emphasize God's creative touch when He created us as I teach. My desire is to help you understand that you are truly fearfully and wonderfully made!

## Class Description

This class we will be uncovering what Archaeologists have found throughout the years, and continue to find today. We

will learn a lot about Egyptian history, beliefs, and daily lives. We will also gain exceptional knowledge about the Kings

of Israel. This series really brings the Bible to life and proves the Bible is Historically Correct!

We will be working through this curriculum, but not always in the exact order.

- We will begin with the Biblical Archaeology Book in the fall.

- We will continue with Unwrapping the Pharaohs and Unveiling the Kings of Israel throughout the rest of the year.

- o We will be using both the previous books together throughout the year.
